

THE RED CARPET

The red carpet is packed with stars and their posses. In the grid below, place stars so that there is one per row, column and heavy lined section. Also make sure there are no stars within one square of each other (even diagonally!)

Once you've placed all of your stars, use the grid to translate the message below. Enter your final answer at the end of DeLaporteBrainbuster.com/ (no spaces, all lowercase) to continue.
